DETAILED ACTION

1. Claims 1, 3, 4, and 6-16 are pending. Claims 1, 3, 6, 12, and 15 have been amended in this communication filed 02/20/07 entered as Response After Non-Final Action and Request for Extension of Time.
2. The claim objection for claim 3 has been overcome by Applicant's amendment to claim 3 and is hereby withdrawn.
3. The 35 USC 112, first paragraph rejection of claims 1, 3, 6, 12, and 15 has been overcome by Applicant's amendment to claims 1, 3, 6, 12, and 15 and is hereby withdrawn.
4. The 35 USC 112, second paragraph rejection of claims 1, 3, 6, 12, and 15 has been overcome by Applicant's amendment to claims 1, 3, 6, 12 and 15 and is hereby withdrawn.

Abstract

5. The abstract of the disclosure is objected to because it has been noted that the Abstract filed 09/16/02 is not on a separate page. Correction is required. See MPEP § 608.01(b).

Specification

6. The Specification is objected to because on page 2, line 20 recites "http://www.mapsonus.com". This line should recite "mapsonus.com". Line 4, page 3 has a similar problem. Hypertext links are not permitted in the Specification. Page 4, line 5 recites "Attorney Docket No. ETAK 7730MCF/BBM" which needs to be removed and replaced with the application number or patent number or pending or

Art Unit: 3694

abandoned. Page 5, line 6 recites "Lat Longs". Page 20, line 15 has a similar problem. This should be Lat/Long. Page 8, lines 9 and 10 recite "1st St". These lines should recite "First Street". Page 8, line 11 recites "19th". This line should recite "nineteenth". Page 16, line 11, line 16, and line 19 recite "1/2 way" and "1/4". This should be "half-way" and "one-fourth". Page 21, lines 24 and 25 have a similar problem. Page 23, line 9 recites the acronym "SCF". It is unclear what "SCF" stands for as a class match. Page 29, line 5, has an acronym which is "rf". This should be written as "radio frequency (rf)". Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

7. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

8. Claims 1 and 3 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claims 1 and 3 recite "map database". The only mention of "map database" is on page 12, line 22. However, "geocoded database(s)" is referenced through out the Specification. The Specification recites "geocoded database". Also the Specification references "mapquest database" and "mapquest query". It is unclear from the Specification whether there are more than one database of just one database for the

invention because a "mapquest database", "a map database", and geocoded database(s)".

Claim Rejections - 35 USC § 112

9. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

10. Claims 6, 12, and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 12 in the last claim limitation recites "... to its endpoint". Does Applicant mean "... to the radial's endpoint"?

Claim 6 recites the limitation "data item" in line 7. Claim 15 recites the limitation "the radials" and "data items" in the last claim limitation. The other limitations recite "plurality of radials" and "data item". There is insufficient antecedent basis for this limitation in the claim.

Claims 4, 7-11, 13, 14 and 16 are also rejected because they depend from a rejected base claim.
